Noida, Uttar Pradesh, 201305 | 7302918587

Software Developer with 2+ years of experience in backend and full-stack development using Java, .NET (C#), and Node.js. Strong expertise in RESTful APIs, Object-Oriented Design, microservices concepts, CI/CD pipelines, and SDLC. Experienced in delivering client-facing applications in service-based environments using Agile methodologies.

## TECHNICAL SKILLS

**Languages:** Java, C#, JavaScript

**Backend:** Node.js, Express.js, ASP.NET Core, Spring Boot, REST APIs

**Frontend:** React.js, HTML, CSS

**Databases:** SQL Server, MongoDB

**Architecture:** Microservices, Distributed Systems

**Cloud & DevOps:** Jenkins CI/CD, Azure (AWS fundamentals)

**Containers & OS:** Docker (basic), Linux CLI

**Methodologies:** Agile, Scrum, SDLC

**Computer Science Fundamentals:** Data Structures & Algorithms, Object-Oriented Design, Problem Solving

## EXPERIENCE

### Software Developer | Ansh Soft Tech | Pune

July 2022 – July 2024

- Developed and maintained 8+ backend services using Java, .NET (C#), ASP.NET MVC, and SQL Server.
- Designed and enhanced 12–15 RESTful APIs supporting authentication, workflows, and data processing.
- Implemented Jenkins CI/CD pipelines, reducing manual deployment effort by 30–40%.
- Resolved 15–20 production and QA issues, improving application stability.
- Wrote 30–40 unit and integration tests and collaborated in an Agile/Scrum environment across the SDLC.

### Full Stack .NET Internship | Mindtree Limited | Pune

March 2022 - June 2022

- Enhanced backend modules using .NET MVC, C#, and SQL.
- Improved REST APIs with validation and error handling, reducing runtime errors by 20%.
- Supported CI/CD pipelines, testing, and release activities.

## PROJECTS

### Enterprise Workflow & Task Management System

- Developed backend services using Java, .NET Core, and Node.js following microservices principles.
- Built 12–15 RESTful APIs for workflow automation and role-based access control.
- Integrated databases and automated deployments using Jenkins CI/CD.

### Client Data Management & Reporting Platform

- Developed backend modules using Java and ASP.NET MVC for client data and reporting workflows.
- Optimized REST APIs and SQL queries using stored procedures and indexing.
- Supported Linux deployments, UAT, and production releases.

### User & Role Management Web Application

- Built a full-stack web application using Node.js, Express.js, React.js, and MongoDB.
- Implemented JWT-based authentication and role-based access control.
- Designed RESTful APIs and supported CI/CD deployments using Jenkins.

## EDUCATION

### SRM Institute of Science and Technology

Modinagar, Uttar Pradesh

Master of Technology in Computer Science Engineering

August 2024 – Present

### Meerut Institute of Engineering and Technology

Meerut, Uttar Pradesh

Bachelor of Technology in Electronics and Communications Engineering

August 2018 – June 2022
